LAST UPDATED 12th September 2026 – 3PM BST

Welcome to week 2 of my College Football community service, where I remember how grateful I am to support a team who has now won a National Championship by doing something useful over rubbing it in the faces of Alabama and Ohio State fans.

Before I continue, some points to note:

• There seems to be games disappearing and reappearing on Disney+. I will aim to update before Saturday if necessary.
• Disney+ games still appear to be LIVE ONLY.
• DAZN offer extended highlights & short highlights for FBS games. FCS games is full replay only. In the event another game overruns, this means that the replay joins as the host network gets the game feed.
• DAZN offers Multiview options for the main broadcast windows. This is Ultimate package only.
• Notre Dame games are live on Sky Sports AND Fighting Irish TV Live. This is a Notre Dame run service, allowing anyone OUTSIDE the US to watch Notre Dame home games (AKA, don't use VPN).
• Other FCS / DII / DIII broadcasts are available online. Let me know if you see any legtimate local feeds for schools, and I'll collate.

As ever, there is a PDF and Image version available. For those who really need reminding, if the box is green, at the time of publication, it's being shown.
